LABOUR IN BORNEO.

terrible. Three hundred people were killed previous to the shock which occurred on Friday.

ANARCHY REWARDED.

Anarchist Henry, who threw the bomb into the Paris Railway Terminus' Café, has been sentenced to death.

THE REVOLT OF "LABOUR" IN THE UNITED STATES.

The unemployed continue to take possession of all possible railway trains, and their endeavours to reach Washington are unabated. A trainload of them has been captured at Oslo by the militia, and another by the cavalry at Oregon.

The foregoing message refers to an organized movement set on foot by a number of daring and desperate "descendants," chief of whom is a man named Coxey. The "boss" may have legitimate grievances deserving speedy redress, but the whole scheme bears a suspicious resemblance to a gigantic foraging expedition.

It seems that the "boss" of the agitators was to recruit a vast army of the unemployed in the Eastern States of the Union and to march, gathering in numbers as they proceeded to Washington where they would lay their claims before Government. The first of these was State employment, the second the stoppage of all immigration into the country for a term of ten years, and the third the introduction of measures to prevent aliens from owning land within the borders of the Union. Coxey, the most prominent organizer of the movement, is assisted by General Fry, Colonel R. C. Avery, Lieutenant-Colonel J. B. Payne, with General Lewis Frye as chief of brigade. The latest mail reports indicate that the "army" was well received in the eastern part of the State of Ohio and hundreds of the unemployed were daily swelling their ranks. By the time it reached Little Rock, on the 1st of last month, the "army" was beginning to assume alarming proportions and awakening serious thoughts in the minds of the people of the State. Two hundred more of the army arrived there that night on a stock train and joined their comrades, who were camped at Little Rock, while 200 more were at San Antonio awaiting transportation. The discipline maintained is said to be remarkable. There was no drinking, and while the army was in camp "General" Fry addressed at least 500 people on the financial situation. His language was temperate and mild. He avowed the movement was just starting; that in less than thirty days 40,000 men would be in Washington for a common purpose. The chiefs of the leading trade-unions of the country are said to be in league with Coxey and are using their influence with their following. The movement has for its rallying cry "Commonwealth"—that which no washer or more significant has ever yet been sounded. That the Government of the United States is really alive to the gravity of the situation seems apparent from the fact that the troops have been ordered out, and that only so late as Sunday last, trainloads of them were being captured and placed under arrest.—Ed. H.K. Telegraph.

DAHOMEY.

PARIS, April 21st.
General Dodds has left Dahomey, which is now perfectly quiet. He returns to France at once.

FRANCE AND ANNAM.

April 24th.
M. de Lanessan (governor of French Indo-China, now on leave) introduced to M. Bonnager (the Colonial Minister) the delegation of Right Mandarins from Annam, who made profuse professions of gratitude on their sovereign's part for the goodness of France. M. Bonnager in reply assured them that French colonial policy was always inspired by a love for the cause of civilization.

(We are a bit philanthropical ourselves!)

The Annamite visitors have also been presented to M. Carnot, president of the Republic.

THE RECENT EPIDEMIC IN LISBON.

We have been requested by Sr. A. G. Roman, Consul-General for Portugal, to publish the following telegram received by him from the Minister of Foreign Affairs in Lisbon:—

The epidemic here is simply disastrous in a mild form, curable in four days or less. There are not many cases remaining in the hospitals, and the disease is fast abating. No fatal cases have occurred.

[This epidemic was first described as being Asiatic cholera in its most violent form hence, apparently, the anxiety of the Portuguese Government to announce the true nature of the disease.—Ed. H.K. Telegraph.]

SECOND DAY, TUESDAY, MAY 1st.

The weather has again been fine for the racing close and interesting. After the Racing Stakes had been run off yesterday, it was discovered that the Official Timeticker's clock had been suffering from an attack of the "slows" and that the times for the first eight races had been wrongly recorded; in each instance a reduction at the rate of three quarters of a second to the mile should be made. This makes Blackberry's performance in the Criterion, that phenominal, at least a most brilliant one, considering how he has been treated, and brackets him with the record breaking First Comet who in the Spring of 1887 romped home in front of his field in just quarter of a second less time than Mr. Sisson's flying black took to negotiate it yesterday, a mere 4.125 seconds. The corrected time also considerably enhances Eros' gallop in the Griffins which now stands second on the list of records—next to that of old Herd who in 1890 he quenched a field in which were some of the fastest sprinters ever seen on a Far Eastern race course. Eros' time of 1 min. 30 sec. stamped him as a pony of the first water, and his victory in the Derby to-day is 3 min. 13.125 sec. A revival of business may take place at the races.

The following are the results of to-day's racing:—
